SAFETY PRECAUTIONS WHILE JOGGING ON ROADS WITHIN AND ADJACENT TO HEADQUARTERS BUILDING COMPOUND

1. With better weather conditions, an increasing number of joggers will be running outside. Agency employees, jogging on roads inside and adjacent to the Headquarters Building compound, are urged to use extreme caution and good safety practices in order to prevent injury to themselves and possible accidents involving vehicles.

2. Joggers should face oncoming traffic and run single file. Wearing brightly colored running apparel also is recommended. By being particularly mindful of these facts, accidents may be avoided and the good relationship the Agency has with the Fairbank Highway Research Station, which permits employee access to their roads, will continue.

SAFETY PRECAUTIONS WHILE JOGGING ON
ROADS WITHIN AND ADJACENT TO AGENCY COMPOUND

With improvement in the weather an increasing number of joggers will be running outside. Agency employees jogging on roads inside and adjacent to the Headquarters compound are urged to use extreme caution and good safety practices in order to prevent injury to themselves and possible accidents involving vehicles. Joggers should face oncoming traffic and run single file. The wearing of brightly colored running apparel is also recommended. By being particularly mindful of these facts, accidents can be avoided and we can continue the good relationship we have with the Fairbanks Highway Research Station which permits us access to their roads.
